From Lone Wolf: Please do not take this feature this very valuable feature away from us on XM. I use this feature alot so I know what to expect when I am driving my big truck through these big cities. I look at it as a blessing that we have this I can look 50 to 60 miles ahead and know what is going on in the city I am entering. The regular radio only gives you info when you are in the city I need to know before I get there and that is why I praise this XM Nation Station.
